Trans HN**

Deficiencies: Code - Category

**11129 - Operational readiness of
lifesaving appliances**

Description

Each life raft or group of life rafts shall be stowed with a float-free arrangement complying with the requirements of paragraph 4.1.6 of the Code so that each floats free and, if inflatable, inflates automatically when the ship sinks. PSCO observed the painter lines for the 02 life rafts connected to the cradle shackle and not the weak-link, preventing float free arrangement.
