FOREIGN CHEMICAL TANKER EXAMINER (FCTE)

PORT STATE CONTROL OFFICER PERFORMANCE AND QUALIFICATION STANDARD

Marine Inspection and Investigation School
Training Center Yorktown

[This page intentionally left blank]

Foreign Chemical Tanker Examiner Performance and Qualification Standard

Competency Code: FCTE

References:

- (a) U.S. Coast Guard Sector Organization Manual, COMDTINST M5401.6 (series)
- (b) Marine Safety: Port State Control, COMDTINST 16000.73(series)
- (c) Performance, Training & Education Manual, COMDTINST M1500.10 (series)
- (d) Safety and Environmental Health Manual, COMDTINST 5100.47 (series)
- (e) Port State Control Examiner TTP, CGTTP 3-72.12

This Performance and Qualification Standard (PQS) workbook is your On the Job Training (OJT) performance checklist for certification as a Foreign Chemical Tanker Examiner (FCTE). It is your responsibility to document all completed unit training items and keep track of all examinations completed during this process by filling out the Port State Control (PSC) Examination Log located in appendix C of this workbook.

This qualification is not restricted to any particular rank or rate. Civilian GS employees are also eligible.

The FCTE competency is one of five “specific cargo/vessel related” Port State Control Officer (PSCO) competencies.

This PQS workbook cites SOLAS regulations from the 2020 Consolidated Edition (74) SOLAS (20). In some cases, the regulations in 74 SOLAS (20) may not apply due to the keel laid date of the vessel. PSC personnel must pay close attention to the applicability dates of the SOLAS chapters and regulations when conducting PSC exams.

This PQS workbook contains the necessary tasks and steps for a PSCO to conduct an FCTE examination. Those members who will be conducting inspections on foreign chemical tank vessels are required to complete all tasks and steps in this PQS workbook. Certain tasks associated with inspections on foreign vessels were intentionally separated from this baseline qualification in order to streamline the national certification process and limit the need to defer tasks. To qualify for an endorsement to perform specialized tasks you will be required to complete the specific tasks and steps associated with that particular type of inspection which are incorporated in the following addendum workbook:

DCN: MPS-PQS-TCY-PA – Polar

The following is a brief overview of how this PQS workbook works. On each task card you will find:

1. **Job:** the formal title of the qualification.
Example: “Port State Control Examiner”
2. **Job Accomplishment:** the main deliverable for the qualification.
Example: “Port State Control Examination”

Major Accomplishment: the valuable products of a job or specialty which collectively make up the job accomplishment.

Example: "Lifesaving Equipment Examination"

3. **Vessel types:** the specific type of vessels within the formal title of the qualification that the task is associated with.

Example: "Port State Control Vessel"

4. **Task:** action to be performed on the job. A unit of behavior which has value for producing major accomplishments/output; has a definite beginning (stimulus); is made up of two or more steps; and results in a measurable output.
5. **Condition:** specifies assistance, aids or constraints the trainee will be given. It states the condition(s)/limit(s) under which the task will be performed.
6. **Standard:** specifications of the levels of accuracy and quality necessary for success, i.e. how well a trainee must carry out the desired performance to complete the task.
7. **Steps:** the sequence of actions required to complete the task.

Ideally, all steps and tasks within the PQS workbook shall be required to be completed prior to obtaining the FCTE competency. With the exception the training prerequisites listed on page (I) and discussed below, the Sector Commander or designee may defer PQS items as authorized by references (a) and (d). If a task is deferred, the reason for deferment must be clearly articulated in both the PQS workbook and the certification letter for record keeping and accountability. Additionally, if a task is deferred that member is not authorized to conduct that specific task.

All tasks and steps must be validated by a certified Verifying Officer (VO). The VO shall observe the successful performance of each task and document such with signatures in the specific task card. VOs must enter their title, name and initials in the Record of Verifying Officer's section before making entries in your PQS workbook.

A Certification Board should only be completed after all tasks and steps are signed by a VO. Upon satisfactory completion of the board, a Letter of Certification/Designation will be issued and the **Unit Training Coordinator should enter the certification in the Training Management Tool (TMT).**

Appendices:

- A. Glossary
- B. Port State Control Examination Log

RECORD OF COMPLETION		
Training Prerequisites	Date	Training Coordinator's Signature
A. Completion of Port State Control Examiner (PSCE) competency		
B. Completion of this PQS Workbook		
C. Completion of Chemical Tank Vessel Indoctrination (Encl. 1) or Tank Vessel Inspector Course (100282)		
D. Successful completion of final assessment under the observation of the Verifying Officer		
E. Successful completion of the final oral qualification board		
Qualification Board Members:		
F. Certification/Designation Letter submitted for approval		
G. Once Certification/Designation Letter is signed, enter competency and certification in TMT		
REMARKS:		

Task Number	Task Description	Date Completed
FCTE-PE01	Schedule examination in Maritime Information for Safety and Law Enforcement (MISLE)	
FCTE-PE02	Conduct meeting with vessel's representative to discuss scope of the examination	
FCTE-CD01	Examine cargo documentation	
FCTE-CD02	Examine Certificate of Fitness (CoF) for the carriage of dangerous chemicals in bulk	
FCTE-CD03	Examine International Pollution Prevention Certificate for the Carriage of Noxious Liquid Substances (IPPC-NLS)	
FCTE-CD04	Examine Tank Vessel Response Plan (TVRP)	
FCTE-CD05	Examine Certificate of Protection	
FCTE-LM01	Examine Cargo Record Book	
FCTE-LM02	Examine Shipboard Marine Pollution Emergency Plan (SMPEP)	
FCTE-LM03	Examine Procedures & Arrangements (P&A) Manual	
FCTE-LM04	Examine cargo/ballast operations manuals	
FCTE-LM05	Examine inert gas manual(s)	
FCTE-LS01	Examine lifeboats	
FCTE-LS02	Examine emergency equipment	
FCTE-FF01	Examine water spray system	
FCTE-FF02	Examine fixed deck foam system	
FCTE-FF03	Examine additional personal fire fighting equipment	
FCTE-ES01	Examine components installed in designated hazardous locations	
FCTE-PP01	Examine containment on deck	
FCTE-TE01	Examine access to bow and emergency towing arrangements	
FCTE-CS01	Examine cargo tank venting arrangements	
FCTE-CS02	Examine cargo pump room	
FCTE-CS03	Examine designated observation area (when applicable)	
FCTE-CS04	Examine liquid cargo transfer systems	
FCTE-CS05	Examine Vapor Control System (VCS)	
FCTE-CS06	Examine high/low vapor pressure protection	
FCTE-CS07	Examine tank liquid high level and overfill protection	
FCTE-CS08	Examine fixed/portable vapor detection instruments	

Task Number	Task Description	Date Completed
FCTE-CS09	Examine Inert Gas System (IGS)	
FCTE-CS10	Examine operational tests of Inert Gas System (IGS) audible and visual alarms and shutdowns	
FCTE-CS11	Examine oil discharge monitoring and control system (ODME) (when applicable)	
FCTE-CS12	Examine cargo temperature control systems	
FCTE-CS13	Examine cargo sample stowage	
FCTE-FU01	Verify International Safety Management (ISM) compliance	
FCTE-FU02	Issue or endorse vessel's Certificate of Compliance	

Appendix A

Glossary: The following terms are used in this workbook and should be reviewed in order to better understand its contents:

Advise: to counsel or recommend

Assign: to give responsibility, to place under the control of a task

Amend (Modify): to make minor changes in/to

Brief: to give information or final precise instructions

Change: to make different in some particular way

Check: to inspect for satisfactory condition, accuracy, safety or performance

Compare: to examine (two or more objects, ideas, people, etc.) in order to note similarities and/or differences

Communicate: to convey knowledge of or information about: make known

Confirm: to validate, establish the truth, accuracy or genuineness of something

Create: to cause to happen; bring about; arrange, as by intention or design

Discuss: to verbally present a topic in detail for examination or consideration

Determine: to settle or decide by choice of alternatives or possibilities. "Decide" refers to arriving at a conclusion and to pronounce that decision. "Determine" is to settle or decide by choice of alternatives or possibilities and to fix precisely

Endorse: to approve, support or sustain; to sign one's name on a document or other instrument

Ensure: to make certain, to guarantee

Enter: to make a record of; record or register

Evaluate: to determine the significance or worth of, usually by careful appraisal and study

Examine: to look at or consider a thing carefully and in detail in order to discover something about it

Identify: to determine critical or necessary conditions or other factors; to determine the specific model of an item; to ascertain the origin, nature or definitive characteristics of; to recognize or establish as being a particular person or thing

Inspect: to examine officially; to look carefully at or over; view closely and critically

Issue: to serve legally binding federal documentation, notices or declarations to an individual, business or other distinctive entity

Appendix A

Locate: to determine or set the position of; to find

Make: to create or cause to happen

Modify (Amend): to make minor changes in/to

Observe (Witness): to watch carefully

Obtain: to gain or attain

Open: to set in action, begin, start or commence

Prepare: plan, gather and assemble information to produce a document (i.e. COI); to put together, to combine elements and produce a product, to make ready

Provide: to supply or make available

Review: to go over for the purpose of determining correctness or currency; to examine a document or process for accuracy in content and/or format and report errors or updates to the author or controlling authority

Schedule: to appoint, assign, or designate for a fixed time

Update: to bring up to date or make current

Validate: to substantiate accuracy or truth of by comparison or investigation

Verify: to confirm or establish the accuracy or truth of something

Witness (Observe): to watch carefully

Pre-Exam (PE)

Foreign Chemical Tank Vessel

Task: FCTE-PE01 Schedule examination in Maritime Information for Safety and Law Enforcement (MISLE)

Condition: *During preparation for examination*

Standard: *In accordance with current policies, procedures and processes*
