Subject: MERCY

ALCON,

We routinely go to Portland, but take the Willamette River to Vigor shipyard. We have never ventured near the Portland-Vancouver I-5 bridge to my knowledge. We are above 116 ft vertical clearance depending on our drafts.

Many MSC ships, both T-AKE and T-AO (dry cargo and tanker) routinely go to Vigor.

Respectfully,

Captain Peter Nolan

Ship's Master, USNS MERCY (T-AH 19)
